Brad

Some of these are new. Most of these are from several years ago when Brad was more active in his previous communications business

Brad Hornick designed a church website for us for a reasonable fee and the final product exceeded our expectation. He is responsive to our needs, patient in getting things right for us, and creative in his design ideas and finding solutions to problems presented. He

is also forward looking - showing us more than we need for now and sharing ideas for for future fundraising and increasing traffic to our site. He is a good communicator, prompt in his work and otherwise excellent to work with. Susan Thomson, Denman Island United Church

Just wanted to say thanks for working such insane hours and doing such a great job on the report card. You totally rock and we couldn't have done it without your commitment to the cause. And FYI - we've also been getting a lot of emails from folks commenting not only on the content, but the layout as well. I've had several people say how great it LOOKS. Catherine Stewart, Greenpeace

I literally gave Brad a box of files and asked him to do an impossible task. He came back a month later with beautiful written and artistically conceived website. He combines intelligence, management capabilities, artfulness and has a high sense of responsiveness to client needs. The site rocks! I recommend him. Just thinking about him makes me sad all over that he's not still with us full time. I have nothing but the highest regard for him and know anyone who hires him will be very fortunate. Now that the book tour whirlwind has finally ended, I want to thank you for all your creativity and professional help in making the Toronto poster and invite, doing such a great job on the web site (which was used quite a bit for the book tour), and just generally being such a pleasure to work with. Susan Hammond, Silva Forest Foundation

Working with Brad was a pleasure. Brad doesn't come in and tell you what he will do for you, instead, he talks to you, listens, and helps you determine what really works well for your organization. He understood our mission and helped us build a website that meets the needs of our various partners - grantees, donors and those just learning about our work. His style of work and highly interactive process allowed the Peace Development Fund to get a much better website than what we had anticipated. Once the new site was launched, we quickly received great comments and praise for our new on-line look. Thanks Brad. Anthony Rominske, Associate Director of Administration, Peace Development Fund

Brad, you did an amazing job on Changing the Flow. It was a great pleasure working with someone who is so creative and capable. A sincere thank you from myself and the rest of the Gordon Water Group. Tim Morris, National Water Campaigner, Sierra Club of Canada, and member of the Gordon Water Group of Concerned Scientists and Citizens

Thanks so much for all the work that you have done to get us our website. I am extremely proud of it and have had lots of positive feedback from a wide profile of leaders and other coaches. I would not hesitate to refer you to any individual or organization I know. Ross Martin, Black Tusk Leadership

Brad, Very nice work -- looks great! That's very kind of you to have gone over your allotted time -- I was beginning to wonder if that was occurring. I found you refreshingly quick, to the point, easy to communicate with and skilled, and there's no doubt that your work will improve our web accessibility -- and thus our work -- tremendously. Your patience with my lack of computer knowledge was also much appreciated ...thanks very much for a job well done! Kenyon, Sitka Conservation Society
